Hello Brian – Can you provide the weeks of sampling ? I remember that you said the last week of June and maybe the first two weeks of July??

Also, please provide an update on the number of samples per matrix per analysis. In case the number has changed.

Your prompt response is appreciated.

Take care.

Myra

If I can do all the work in one mobilization, I think that we will start late June and go for around 3 weeks. That assumes the contractor can get all the access agreements required and line up the all of the equipment required and the Gulf does not through a storm at us.

Thanks

Hi Brian – thanks for the projection

What month do you think it will take place?

Thanks

Myra

I just realized that I was looking at the original and not revised Sampling Plan and that numbers for soil sampling are incorrect. I have attached a revised spreadsheet with the correct number of samples for soils.

Thanks
